

The Groundhog GP600 Fusion Welfare Units have been approved by VCA.

GP600 Fusion

from Groundhog

The latest concept in 12 Volt technology delivers cost effective and environmentally efficient, robust & easy to use **Mobile Welfare Units** from Groundhog

Accommodating Sustainable Innovations

The Groundhog **GP600** Fusion range of Mobile Office Welfare Unit is ideal for flexible on-site applications, not only for worker welfare, but offering a separate, private office area too.

The fully galvanised twin axle GP600 offers the robustness and ease of use of the Groundhog GP360 whilst providing the added versatility of an office space.

The GP600 mobile welfare office offers cost savings as the warm water and heating is supplied by an on board system which does not require the generator to run. The generator will only be required for microwave and kettle.

- > Warm water supplied by an on-board heater system
- > Spacious, well equipped Canteen / Seating Area
- > Comfortably sits up to 6 people
- > Separate office space
- > Secured in less than 3 minutes
- > High security doors and windows
- > Meets HSE requirements

Value Proposition

Potential yearly savings for the GP600*
(based on units running 12 hour day and 5 day week)

- ✓ Weighs **2500kg** reducing haulage costs
- ✓ Minimum fuel savings of up to **£2,000**
- ✓ CO₂ emissions saving of over **10,000kg**
- ✓ Generator service cost saving of **£1,750**
- ✓ Potential breakdown costs saving of **£1,200**
- ✓ Low noise pollution

Specifications

- >Dimensions: **6000mm (L) x 2284mm (W)***
- >Net Weight: **2500kg***
- >Gross Weight: **3500kg**

1. Welfare Area

- Table and bench seating for up to 6 persons
- Air blown heating system
- Microwave and kettle
- Warm water supplied by on-board heater system
- Large stainless steel sink
- Single 2amp socket outlet
- Fresh drinking water container (20 Ltr)

2. Office Area

- Desktop
- Bench seating for 2 persons
- Air blown heating system
- 12 Volt L.E.D. lighting PIR
- Single 2amp socket
- Notice board
- Sliding window with steel shutters
- 2 Coat hooks

3. Toilet Area

- Standard recirculating toilet c/w ventilation pipe
- Recirculating forearm wash basin with cold water foot pump
- Warm water supplied by on-board heater system
- Paper towel & soap dispenser
- Toilet roll holder

4. Warm Room / Generator Area

- 12 Volt L.E.D. lighting PIR
- Air blown heating system
- Coat hooks
- Ventilation panel
- 6 kVA diesel generator with exhaust venting
- Access to fuel tank with separate fuel level gauge (58 Ltr cap)
- Fuel Active system

Interior features that make the GP600 Fusion

GP360 Fusion control panel

GP360 Fusion control panel with battery indicator allows the user to control the heater temperature while the frost stat ensures the unit stays above 5°C.

Under work top storage

Store cutlery, crockery and other kitchen utensils in the handy under work top storage.

Battery Guard with Pro Charge Ultra

Pro Charge Ultra (a) charges the 130A/hr battery when the generator is running. The Battery Guard (b) prevents the excessive discharge of the battery and protects electronic appliances against overvoltage.

Toilet wash area

Warm water outlet set over forearm wash basin with soap and paper towel dispensers.

Canteen wash area

Warm water outlet set over large wrist to elbow sink with soap and paper towel dispensers.

12V LED PIR lighting

12V LED PIR lighting automatically senses movement turning lights on or off as required. Situated in the canteen, toilet and generator room.

Air blown heating system

The air blown heating system does not require the generator to run continuously due to the on-board battery system saving on fuel and servicing costs. Heating outlets set in canteen, toilet and warm room.

Toilet outlet

Canteen outlets

Secured in less than 3 minutes

Easily towed, one man operation secured and manoeuvred on site. Its many safety features make it a high secure and money saving choice of welfare unit for rental companies and contractors.

Push button controls to lower front and rear hydraulic rams

Rams lift unit from ground ready to release axle pins

Unit is lowered and canopy locked to protect towing facility

1 min

3 min

Many vandal resistant, safety features

High security window shutters

High secure double lock door with integral window and vent

General features

Canteen

- Table and bench seating for up to 6 persons
- Air blown heating system
- Fresh & waste water containers (20 Ltr cap each)
- Microwave and kettle
- Fresh & waste water containers (20 Ltr cap each)
- Warm water supplied by on-board heater system
- Large stainless steel sink
- 12 Volt L.E.D. Lighting PIR
- Single 2amp socket
- Consumer board c/w RCD & MCB's
- Generator control panel with hour run meter
- Paper towel dispenser
- Liquid soap dispenser
- Disposable cup dispenser
- Carbon monoxide monitor
- Smoke alarm
- Air Vents
- Fresh drinking water container (20 Ltr)
- Storage area under counter
- Low battery warning light and volt meter
- Battery guard

Generator / Drying Room

- 12 Volt L.E.D. lighting PIR
- Air blown heating system
- Coat hooks
- Ventilation panel
- 6 KVA diesel generator with exhaust venting through roof area
- Fuel Active system
- Access to fuel tank with separate fuel level gauge (58 Ltr cap)

Toilet Area

- Standard recirculating toilet c/w ventilation pipe through roof area
- Paper towel & soap dispenser
- Toilet roll holder
- 12 Volt L.E.D. light with movement sensor
- Ventilation panel
- Recirculating forearm wash basin with cold water foot pump
- Warm water supplied by on-board heater system

Office Area

- Desktop
- Bench seating for 2 persons
- Air blown heating system
- 12 Volt L.E.D. lighting PIR
- Single 2amp socket
- Notice board
- 2 Coat hooks
- Sliding window with steel shutters

Optional Extras

- 12V cooler box
- Exterior colour & style
- Galvanised chassis
- Panels & decals
- Lifting eyes
- Flush ceramic 12 Volt toilet system
- Delivery service
- Spare wheel
- 12 Volt LED flood light
- Solar panel
- Toilet / canteen wash area
- Starter Pack
- Safety pack
