

Anti-vandal, Mobile & Static Site Accommodation Units

Mobile & Static Welfare Unit Range from Groundhog

Mindful of the environment, lightweight, compact & well equipped

Committed to delivering ingenuity,
quality & reliability

- INNOVATION THAT WORKS

Continuous innovation in technology delivers cost effective and environmentally efficient, robust & easy to use **anti-vandal, mobile and static welfare units**

Welcome to the Groundhog range of mobile & static welfare units. These lightweight and compact units meet all HSE & CDM requirements and provide all of your on-site needs.

Whether you require mobile welfare units or more permanent welfare accommodation with office space, these Groundhog welfare units can be deployed, with the minimum of fuss, to provide your workforce with everything they require whilst saving you money on running costs.

Standard units

- > Easily towed and secured in less than 3 minutes
- > Spacious, well equipped canteen/ seating area
- > Warm water supplied by an on-board heating system
- > High security doors and windows
- > Meets HSE & CDM requirements

Fusion units

- > Reduced generator servicing
- > Reduced fuel usage
- > Longer generator life
- > Fewer breakdowns
- > Air blown heating system
- > Significantly reduced noise pollution
- > Warm water supplied by an on-board system

Please visit our website at www.groundhog.co.uk to view the full range and individual brochures on all our mobile, static and bespoke products

Fusion Pulse units

- > Solar technology with generator back up
- > Huge reductions in water & fuel usage and carbon emissions
- > Genuinely increased engine service intervals with up to 80% reductions in generator run time

Mobile Units have obtained type approval with VCA

GP360^D

Comfortable, compact and compliant, easily towed and secured in minutes saving time and money.

The single axle Groundhog Mobile Welfare Unit GP360D is a lightweight and compact towable unit that meets HSE & CDM requirements and provides all your on-site needs in one small package.

The units are suitable for accommodating six people, which provides pleasant and safe working environments, ideal for rental companies and contractors.

Easily towed, one man operation secured and manoeuvred on site, in less than 3 minutes. Its' many safety features make it a high secure and money saving choice of welfare unit.

- > Warm water supplied by an on-board heating system
- > Spacious, well equipped canteen / 6 person seating area
- > Secured in less than 3 minutes
- > High security doors and windows
- > Meets HSE & CDM requirements
- > Removable low level lifting eyes
- > Fully galvanised chassis

Specifications

- > Dimensions:
3655mm (L) x 2300mm (W)*
- > Dimensions including drawbar:
4920mm (L) x 2300mm (W)*
- > Weight:
- > Unladen **1,700kg***
- > Possible Gross: **1,815kg**

The GP360^D complies with Health & Safety regulations which guarantees certain facilities for contractors working on site.

Regulation 24	Facilities for Changing Clothing	✓
Regulation 25	Facilities for Rest & to Eat Meals	✓

1. Welfare Area

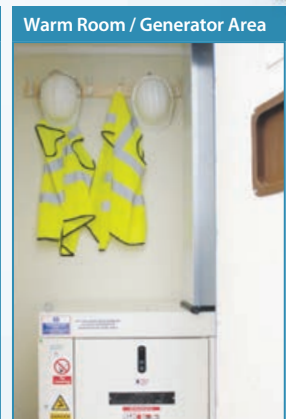

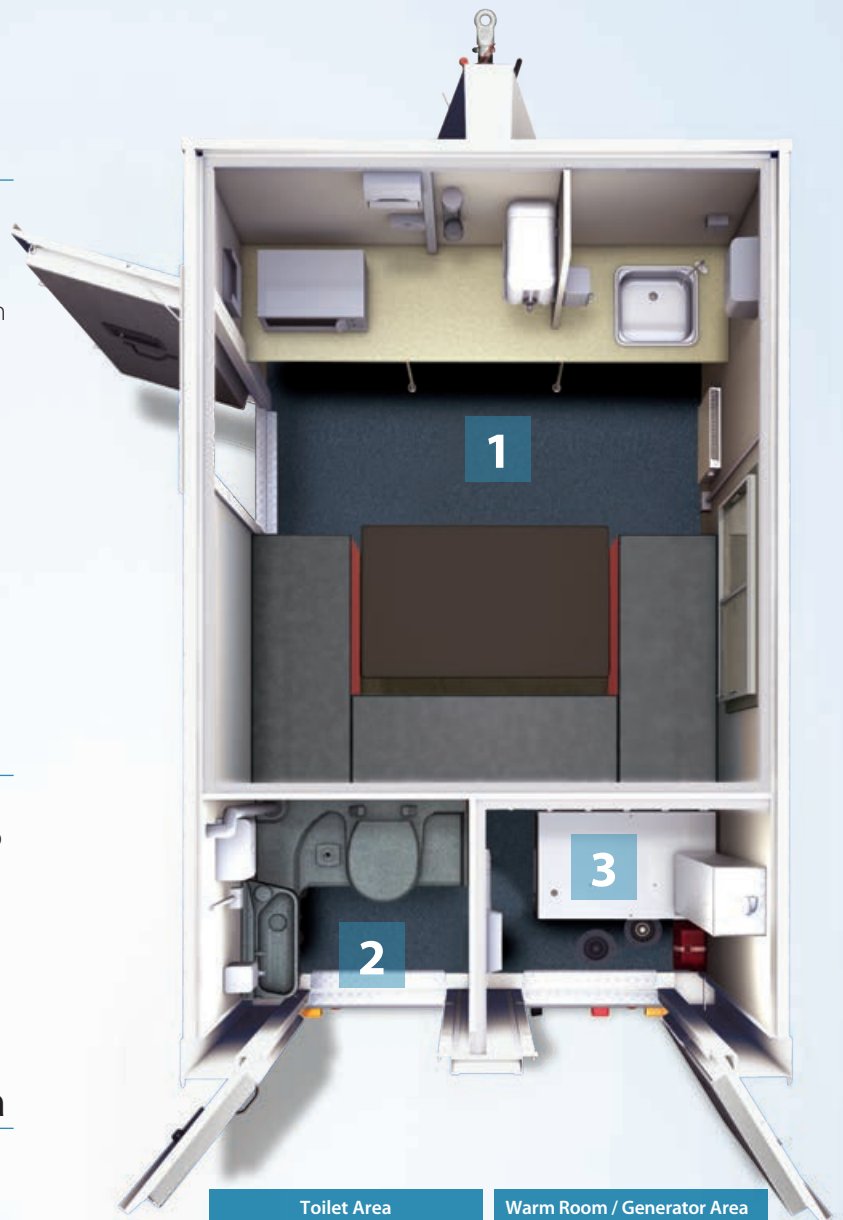

- Table and bench seating for up to 6 people
- Microwave and kettle – both hard-wired
- Fresh and waste water containers (20L cap each)
- Warm water supplied by on-board heating system
- Large stainless steel sink c/w warm water tap
- 12V pump for water system
- 1kW electric wall mounted heater
- 230V 600mm strip light
- Single 230V 2amp socket
- Consumer board c/w RCD & MCB's
- Generator control panel with hour run meter
- Paper towels, liquid soap and cup dispenser
- Carbon monoxide monitor and smoke alarm
- Fresh drinking water container (20L)
- High level vent

2. Toilet Area

- Plastic recirculating toilet c/w ventilation pipe
- Forearm pedestal wash basin c/w warm water tap
- Toilet tank size: 280L
- Toilet roll holder
- 12V LED light with PIR
- Warm water tap supplied by on-board heating system
- Liquid soap & paper towel dispenser

3. Warm Room / Generator Area

- 230V Bulkhead light
- 230V tubular heater
- Coat hooks
- Ventilation panel
- 6kVA diesel generator with exhaust venting through roof area
- Access to fuel tank with separate fuel level gauge (fuel tank capacity = 58L)
- Fuel Active system

Secured in less than 3 minutes

- Generator start battery

REMOVABLE LOW LEVEL LIFTING

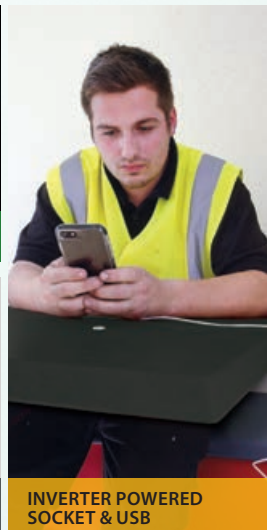

RECYCLED NON-SLIP PLASTIC FLOORING

SOLAR TECHNOLOGY (Optional)

FUEL ACTIVE

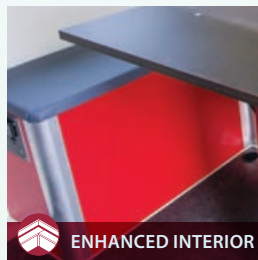

INVERTER POWERED SOCKET & USB

TELEMETRY & TRACKING (Optional)

PROTECTIVE SHROUD OVER DRAWBAR

ENHANCED INTERIOR

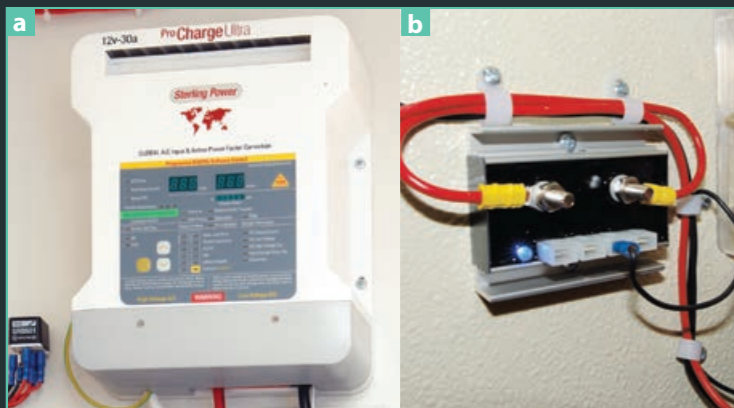

FULLY HOT-DIPPED GALVANISED CHASSIS

Interior features that make the GP360 Fusion

GP360 Fusion control panel

GP360 Fusion control panel with battery indicator allows the user to control the heater temperature. Included is an inverter powered single socket.

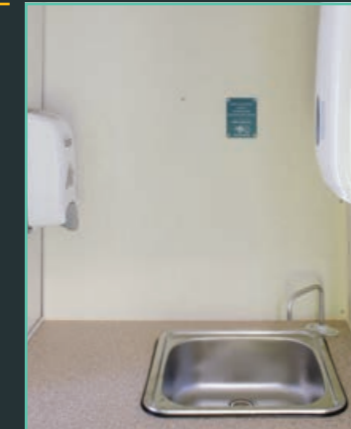

Battery Guard with Pro Charge Ultra

Pro Charge Ultra (a) charges the 130A/hr battery when the generator is running. The Battery Guard (b) prevents the excessive discharge of the battery and protects electronic appliances against undervoltage.

Toilet wash area

Warm water outlet set over forearm wash basin with soap and paper towel dispensers.

Canteen wash area

Warm water outlet set over large sink with soap and paper towel dispensers.

12V LED PIR lighting

12V LED PIR lighting automatically senses movement turning lights on or off as required. Situated in the canteen, toilet and generator room.

Air blown heating system

The air blown heating system does not require the generator to run continuously due to the on-board battery system saving on fuel and servicing costs.

Heating outlets set in canteen and generator room.

Generator room outlet

Canteen outlets

GP500^D and GP500 Fusion

For full details on all our ranges please visit our website at www.groundhog.co.uk

The Groundhog **GP500** Standard and Fusion Range of Mobile Welfare Units are ideal for flexible on-site applications, offering a larger seating area, accommodating up to 10 people.

The twin axle GP500 offers the robustness and ease of use of the Groundhog GP360 whilst providing additional seating area to accommodate a larger workforce.

The **GP500 Fusion** mobile welfare unit offers cost savings as the heating is supplied by an on board system which does not require the generator to run. The generator will only be required for microwave, kettle and hot water system.

- Air blown heating system
- 12V LED lighting with PIR
- 12V inverter sockets for use of laptops, printers and phone chargers only
- 230V electrical socket (9.8kVA only)
- Notice and wipe clean board
- Office table and chair (optional)
- Double glazing (optional)

SWO9700 Fusion Range

For full details on all our ranges
please visit our website at
www.groundhog.co.uk

The **static SWO9700** Fusion offers all the cost effective and environmental features & benefits of the SWO7600 with the added feature of a spacious toilet, incorporating full eco flush & waterless urinal and increased space in the canteen area, which accommodates up to 12 people.

Groundhog SWO9700 (with office)

If you require secure welfare and office space with large toilet space and facilities, then the SWO9700 is an ideal static unit. Along with the SWO7600, it meets HSE & CDM requirements, offers anti-vandal features which include steel personnel double locking door systems and internally secured steel window shutters, providing all your on-site needs in one compact, cost effective package.

The units are suitable for accommodating twelve people, which provides pleasant and safe working environments, ideal for rental companies and contractors.

Once lifted into position, they provide a vandal resistant facility and can come with a number of additional money saving features.

- > Warm water supplied by an on-board heating system
- > Air blown heating system
- > Comfortably sits up to 12 people
- > Low level lifting
- > High security doors and windows
- > Meets HSE & CDM requirements
- > Fixed low level lifting & fork pockets

Value Proposition

Ease of transport	Reduced fuel costs up to 60%	CO ₂ emission savings up to 60%
Reduced generator service cost	Increased generator efficiency	Low noise pollution

Figures are for guidance only. For your own specific savings, contact Genquip for your bespoke value proposition.

Specifications

- > Dimensions: **9760mm (L) x 2755mm (W)***
- > Weight:
- > Unladen: **5,500kg***
- > Possible Gross: **7,010kg***

1. Welfare Canteen Area

- Pleasant and light rest area
- Table and bench seating for up to 12 people
- Air blown heating system – thermostatically controlled
- Warm water supplied by on-board 12V heating system
- Microwave and kettle – both hard-wired
- Stainless steel sink with instant warm water
- Worktop storage (1,000mm) base unit
- Consumer board c/w RCD & MCB's
- Carbon monoxide monitor and smoke alarm
- Paper towels, liquid soap and cup dispenser
- 1,200 x 900mm notice board
- 2 x inverter powered socket and USB connection
- 1 x 230V double socket & 1 x 230V single socket
- 12V LED lighting with PIR

2. Drying Room

- 12V LED lighting with PIR
- Air blown heating system – thermostatically controlled
- Bench seating and coat hooks
- 12V fuse board and inverter for sockets
- Diesel powered heating system
- 130Amp hour battery
- 12V 30Amp battery charger
- Battery guard
- High level window

3. Generator Room

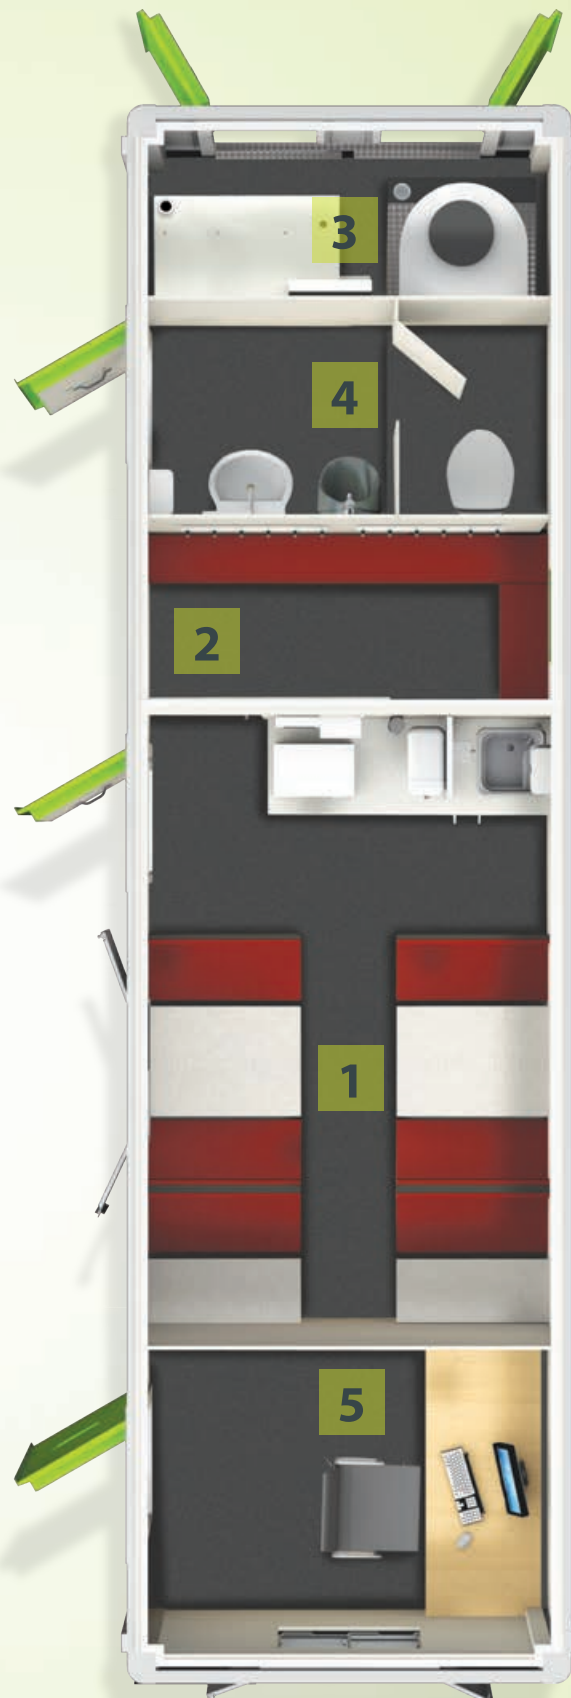

- 9.8kVA super silent diesel generator with exhaust outlet and ventilation
- 300 litre diesel tank with filler neck and level gauge
- 600L fresh water tank and 650L waste tank
- 12V LED lighting with PIR
- Frost stat
- Generator start battery
- Air blown heating system

4. Toilet Area

- Waterless urinal / Eco full flush ceramic toilet
- Ceramic hand wash basin with warm water tap
- Warm water supplied by on-board 12V heating system
- Toilet roll holder / mirror
- 12V LED lighting with PIR
- Liquid soap and paper towel dispenser
- High level window
- Waste tank level indicator

5. Office Area (SWO9700)

- Sliding window with steel shutters, which when closed are secured internally
- Can accommodate 2 people
- Air blown heating system – thermostatically controlled
- 12V LED lighting with PIR
- 12V inverter sockets for use of laptops & battery charging
- 230V double socket (9.8kVA only)
- Notice and wipe clean board
- Office table and chair (optional)

Mobile Office Units

For full details on all our ranges please visit our website at www.groundhog.co.uk

The single and twin axle Groundhog **Mobile Office Units** are lightweight towable units and have a good economic use of space and provide suitable on-site office and canteen accommodation.

Groundhog Welfare Unit G360 Office

The units comes equipped with a wall mounted heater, lighting and double power socket as standard, optional features include warm wash set over large sink, storage under worktop, coat hooks and notice board, providing a pleasant environment for office and canteen use.

The mobile office unit is easily towed, and can be deployed by a one man operation. Its' many safety features make it a high secure and money saving choice for rental companies and contractors.

- > Electric wall mounted heater
- > Warm wash set over large sink
- > Sliding window with steel shutters
- > Meets HSE & CDM requirements
- > Removable low level lifting eyes

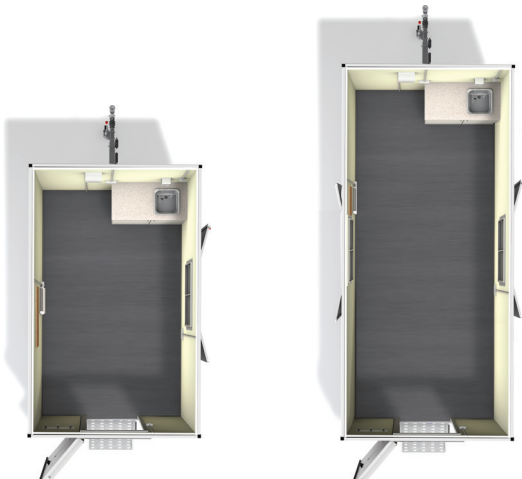

Specifications

Single axle:

- > Dimensions: **4820 (L) x 2300 (W)**
- > Weight:
- > Unladen: **1,450kg (approx.)***
- > Possible Gross: **1,800kg***

Twin axle:

- > Dimensions: **6250 (L) x 2300 (W)**
- > Weight:
- > Unladen: **1,800kg (approx.)***
- > Possible Gross: **3,000kg***

External

- 4 lifting eyes
- 240v appliance inlet
- 4 stabilising arms
- Galvanised retractable steps
- Sliding window with steel shutters

Office Area

- Electric wall mounted heater 1KW
- Open plan working area as standard
- Warm wash optional
- 240V strip lighting
- 1 x double 13Amp socket outlet

Optional extras

- Coat and hat hooks
- 6x4 Notice board
- Additional double socket
- 1000mm base c/w worktop
- Auto wash system with large stainless steel sink

Mobile **Secure Store** Units

For full details on all our ranges
please visit our website at
www.groundhog.co.uk

The Groundhog **Mobile** Storage Units are perfect for all types of contractors who need fast, easily transported and deployed effective site security.

Ground lowering, anti-vandal, mobile, site storage unit

Groundhog's Mobile Secure Storage Units are built using proven techniques and are a perfect solution for on-site storage, providing a safe environment for tools and equipment.

- > Units are built using proven techniques
- > Fully welded, anti-vandal
- > Colours in own livery colours
- > Superior security - each mobile unit is fitted with hidden hinges, three point locking and Hercules Chubb locks
- > Huge savings on transport costs as units can be towed by company vehicles (no HIAB required)
- > Removable low level lifting eyes

Unisex **Solar Hybrid** Toilet

For full details on all our ranges please visit our website at www.groundhog.co.uk

The demountable or fixed to trailer **Solar Hybrid Toilet** is the latest concept in 12 Volt technology delivering cost effective and environmentally friendly, robust & easy to use **mobile** toilet facilities.

The Groundhog anti-vandal Solar Hybrid Toilet Unit has an in-built effluent tank, so there is no need to hire separate effluent tanks saving you time and money.

Robust and incredibly efficient, these Solar Hybrid Toilets offer huge reductions in fuel usage, carbon emissions and service schedules. Incorporating all the latest environmental and safety technologies, these units are ideal for the ever increasing demands of the event and hire industry.

- > Low flush eco toilet
- > One male and one female toilet
- > Waterless urinal trough
 - 100% reduction in water usage
- > Demountable or fixed to trailer
- > Rain harvester tank for toilet flush – 61 Litres
- > Powered by roof mounted solar panels with generator back up

Value Proposition

Reduced generator service cost

Reduced fuel costs **up to 99%**

CO₂ emission savings **up to 99%**

Low flush eco toilet – **reduced water usage**

Waterless urinal troughs – **100% reduction in water usage**

Low noise pollution

Figures are for guidance only. For your own specific savings, contact Genquip for your bespoke value proposition.

Solar technology with diesel generator power back-up

Specifications

- > Dimensions: **3655mm (L) x 2300mm (W)***
- > Dimensions including drawbar: **4920mm (L) x 2300mm (W)***
- > Unladen weight: **3,000kg***
- > Possible Gross weight: **3,500kg***

1. Male Toilet Area

- Low flush eco toilet
- 1200mm waterless urinal
- 1200mm stainless steel wash trough with two warm water taps
- Warm water supplied by on-board heating system
- 130Amp hour battery/ charger & battery guard
- 12V LED lighting with PIR
- Air blown heating system
- 325 litre upright fresh water tank
- High level security windows c/w security mesh guard
- Battery storage/ heating controls
- Liquid soap & paper towel dispenser
- Effluent tank level indicator

2. Female Toilet Area

- Low flush eco toilet
- 400 litre waste tank
- Toilet roll holder
- 12V LED lighting with PIR
- Hand wash station with hot tap
- Warm water supplied by on-board heating system
- Liquid soap & paper towel dispenser
- Effluent waste outlet
- High level security windows c/w security mesh guard

3. Generator Area

- 12V LED lighting with PIR
- Air blown heating system
- Ventilation panel
- 6kVA diesel generator with exhaust venting
- Fuel Active system
- Access to fuel tank with separate fuel level gauge (100 Ltr cap)
- Generator start battery
- Fuel tank runtime = approx. 50 hours
- 61 litre rain harvester collection tank
- 3" gate valve (for direct emptying of waste tank)

Easily deployed

- Can be safely towed to site and left fixed on the trailer or demounted as a static stand-alone toilet block

Inverter powered sockets

Eco full flush ceramic toilet

NEW to the *groundhog* range:

Male & Female toilets

Innovation that works for the **entire workforce**

Available in **MOBILE** and **STATIC** configurations

Our continuous improvements to on site accommodation now feature **toilet facilities for male and female workers**. The Groundhog **mobile GP500, GPO500 & static SWO7600** products come fully equipped with **two toilets**, with a choice of recirculating or full flush systems.

Each unit **complies with current regulations** and has a good economic use of space. These lightweight units are **secured in minutes** providing pleasant & safe working environments, making them a high secure choice of anti-vandal welfare unit.

Innovating Welfare Design.

We are constantly improving the Groundhog product range to ensure **all our units meet ongoing legislation** and remain as **robust** and **easy to use** as ever.

Our Fusion Pulse range offers the following **environmental** and **cost saving** benefits:

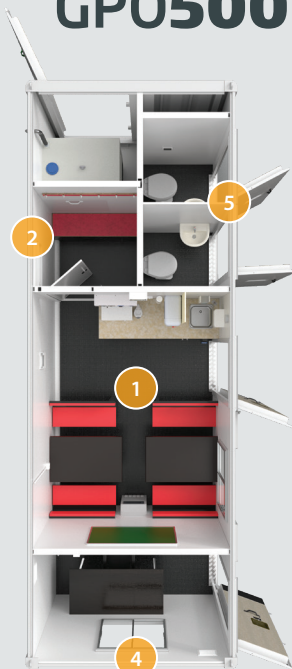

- Reduced generator run time **UP TO 80%**
- Reduced fuel costs **UP TO 80%**
- CO₂ emission savings **UP TO 80%**
- LOW NOISE POLLUTION**

LED LIGHTING

With built in PIR sensors.

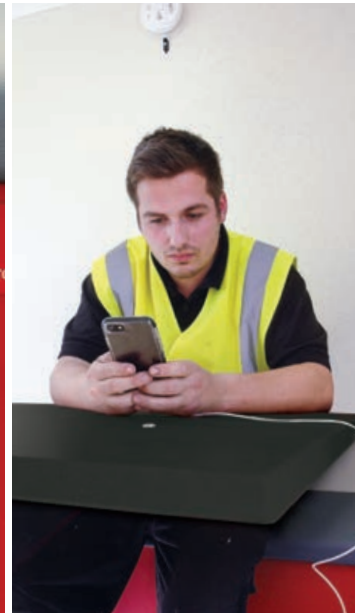

INVERTER POWERED SOCKET

INVERTER POWERED SOCKET
SUITABLE FOR LAPTOP/MOBILE PHONES
IN THE EVENT OF NO POWER PLEASE START GENERATOR

C/W USB connections

Suitable for powering laptops, phone chargers and small printers.

FULLY HOT-DIPPED GALVANISED CHASSIS

Helps to prevent rust and corrosion, which leads to increased safety and reduced maintenance and repair costs.

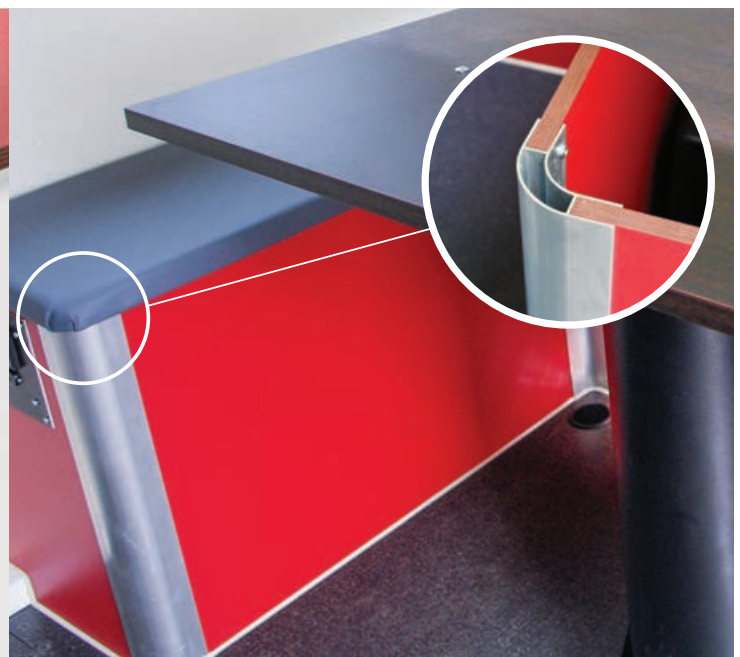

PROTECTIVE SHROUD OVER DRAWBAR (NOSE CONE)

Protecting the unit against vandalism and theft.

ENHANCED INTERIOR

Seat bases constructed from WISA®-Multiwall, a high quality plastic coated wall lining panelling ideal for the construction industry.

- Easy to clean with water and detergent ✓
- UV resistance to prevent colour fading ✓
- Taint and odour free ✓
- Elastic, non-cracking coating ✓
- Does not contain any chlorine ✓
- Good chemical resistance (standard ISO 175) ✓

REMOVABLE LOW LEVEL LIFTING

Ensures feet remain on the ground at all times.

SOLAR TECHNOLOGY

Highly efficient 130amp power AGM battery, charged via intelligent solar power system with built in controller.

FUEL ACTIVE

Delivering clean diesel to the fuel lines.

TELEMETRY & TRACKING

RECYCLED NON-SLIP PLASTIC FLOORING

One of the most innovative new building materials to hit the UK market in recent years – environmentally-friendly and economical, light weight and durable, impervious against spillage of: diesel fuel / oil / detergents / road spray.

Unlike conventional flooring, Groundhog flooring is **MAINTENANCE FREE.**

- | | | | |
|------------------------------|---|---|---|

THE FUSION PULSE SYSTEM: Intelligent Solar Technology

Building on the success of our green innovation and customer feedback, Groundhog has developed the **Fusion Pulse** range of mobile ECO-Welfare units, featuring **hybrid solar technology**.

All units remain as **robust** and **uncomplicated** as ever, while improving **environmental efficiency** and **increasing cost savings** for you.

Increasing eco-efficiency and saving you money

The latest concept in **hybrid solar technology** delivers cost effective, environmentally efficient, robust & easy to operate **Anti-Vandal, Mobile & Static Welfare Units**

Environmental features give owners and end users **improved chances of winning contracts through greater sustainability** and cost savings by way of **reduced fuel usage, 80% reduction in generator servicing, longer generator life, fewer breakdowns and massively reduced noise pollution.**

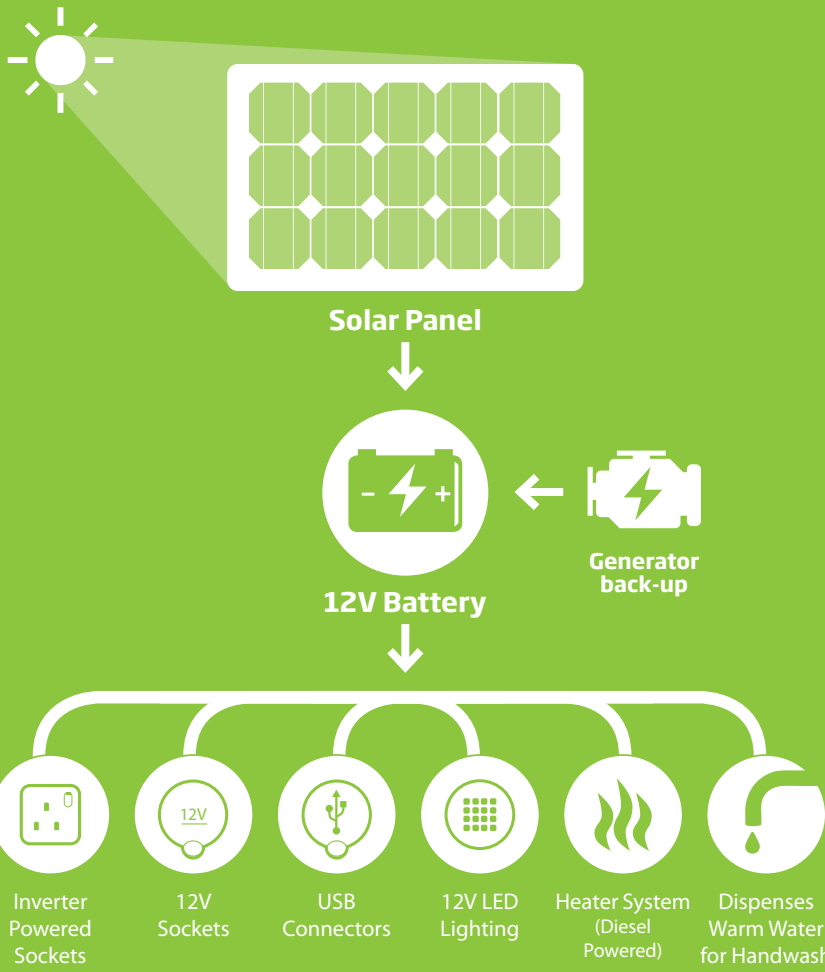

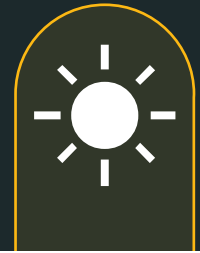

Innovating Welfare Design.

Easy to operate, environmentally efficient and cost effective.

Highly efficient 130amp power AGM battery, charged via **intelligent solar power system** built in controller, backed up by an **on-board power silenced generator** – ensures optimum performance is maintained when in use and unmanned.

Generator NOT needed

for the operation of LED lights and heating system

The units are powered by solar technology, with generator backup, charging the 12V battery.

This allows the LED lighting, diesel powered heating system and inverter powered electrical sockets to be operational and also dispenses warm water in toilet and canteen

– all without the need for the generator to be running.*

<p>Reduced generator run time UP TO 80%</p>	<p>Reduced fuel costs UP TO 80%</p>	<p>CO₂ emission savings UP TO 80%</p>	<p>LOW NOISE POLLUTION</p>
--	--	---	-----------------------------------

INCREASED ECO-EFFICIENCY

Improved chances of winning contracts through greater sustainability.

SAVES YOU MONEY

Environmental features give owners and end users savings by way of **reduced fuel usage, 80% reduction in generator servicing, longer generator life, fewer breakdowns and massively reduced noise pollution.**

* To power the microwave, kettle and hot water system, the generator needs to be running.

Training & Support

To ensure safe use & maintenance of **Mobile & Static** Anti-Vandal Welfare Accommodation Units

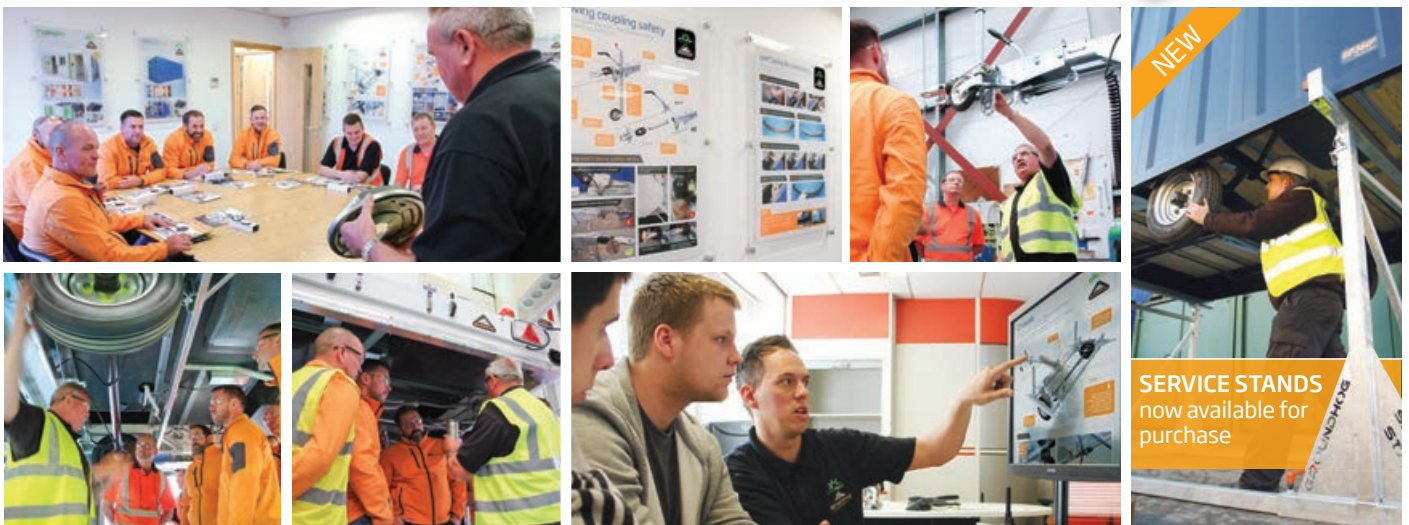

Detailed and focused training for all Groundhog Welfare Units, covering all aspects of **safety**, **servicing** and **maintenance**, leading to **greater on-site safety for your customers** and **prolonged longevity** for your unit.

Training includes:

- Training performed at **Groundhog factory** or clients' premises
- Standard Health and Safety information
- Operating instructions (deployment)
- Under gear maintenance • Fault finding
- Wheel replacement • Pre-hire checks
- Generator engine maintenance
- Towing checks/ legislations

Concise **training and operator manuals** issued on every training course
