

SW6100

from Groundhog

Anti-vandal, Static
Site Accommodation Unit

Mindful of the environment, lightweight, compact & well equipped

SW6100 Standard

The Groundhog **SW6100** Standard Static Welfare Unit is incredibly efficient and provides all your on-site needs in one compact, cost effective package.

The SW6100 accommodates 8 people, which provides a pleasant, restful environment, ideal for construction, rail and highways contractors.

Once lifted into position, the unit provides a vandal resistant facility and can offer a number of additional money saving features.

The canteen area has well equipped amenities such as, work surface with stainless steel sink, under work surface storage, handwash facility with soap and paper towel dispensers, fresh drinking water and appliances which include a microwave and kettle.

The generator room is fitted with a 6kVA super silent diesel generator, which significantly reduces noise levels, the generator has a 200 litre diesel tank complete with filler neck and level gauge.

The toilet room is equipped with warm water outlets and are fitted with a plastic recirculating toilet with ventilation pipe and forearm wash basin.

Externally the unit has low level lifting along with the facility for Groundhog's Hogleft lifting system (optional).

- > Warm water supplied by an on-board heater system
- > Spacious, well equipped Canteen / Seating Area
- > Comfortably sits up to 8 people
